
PROJECT LIFE

A virtual wellness house for those living with metastatic breast cancer and their loved ones.

By: Lesley Kailani Glenn - Founder

**Metastatic Breast Cancer patients are living longer than ever....
...but only if they have access to diagnostics, drugs, supportive
care and clinical trials.**

Dr. Julie Gralow

Project Life seeks to address and answer the supportive care role.

<https://doi.org/10.1093/jncics/pky062>

Project Life is a virtual wellness house, offering programming and support, to those living with metastatic breast cancer, their caregivers and children, through our five dimensions of wellness.

Project Life will promote collaborations with cancer centers and organizations that resource the MBC Community throughout the U.S.

Five Dimensions of Wellness

Social

Emotional

Physical

Financial

Spiritual
